

## VACCINATING THE CHILDREN BY THE SCORE

Now Point of Honor Among the School Children To Subject To Ordeal—Over One Hundred In Two Days.

In accordance with his determination to make a vigorous and thorough attack on the hold that small pox has obtained upon Bisbee, City Physician Williams has been paying particular attention to the public schools for the past few days. While the law has always required that parents and guardians shall have their children vaccinated, it is a well known fact that the law has never been enforced.

The method which is being pursued by Dr. Williams, with the assistance of the teachers, is rather a diplomatic than a compulsory one. On Monday the first visit to the schools for the purpose of vaccinating the pupils was made. Contrary to the general expectation, no one was required to submit to the ordeal, but instead volunteers were called for. Very much to the satisfaction of the physician and the teacher, no less than forty volunteered to have their arms and undergo the slight pain that is unavoidable.

The affair was freely discussed on the play grounds, and it became a general understanding that those who would not volunteer were lacking in the necessary courage. The result was that when the physician called yesterday there were no less than seventy who offered themselves, and if these at least sixty were Mexicans, the last ones it was expected to reach and whom it was most desirous to vaccinate.

Another visit will be made to the school this afternoon at 4 o'clock, and there is little doubt that the physician will have all the volunteers to which he can attend.

### TO CONFER WITH GREENE.

EL PASO, Jan. 21.—H. R. Nickerson, president of the Sierra Madre and Pacific, and E. J. Gates, treasurer of the Sierra Madre and Lumber company, left Sunday on the private car Alameda attached to the Mexican Central train for Chihuahua where they will hold a conference with Colonel Greene.

Colonel Greene has been in Madera, the headquarters of the Sierra Madre Land and Lumber company, for the past three weeks, having taken personal charge of affairs of the company. The resignation of General Hargrave and a number of his assistants have been accepted and the effect of the colonel's assumption of direct management is noticeable on all sides.

The No. 1 mill will be completed and running as soon as machinery now on the way arrives. Already a number of contracts have been made with mining, railroad and furniture companies for this year's output.

### SMELTER BLOWN IN.

The new Imperial smelter, situated south of Red Rock in Pinal county, was completed and blown in this week, says the Florence Blade. This is one of the most complete and modern smelting plants in the territory and is owned by the Imperial Mining company, the owners of the famous Silver Belle mines. These mines, for two years past, have been shipping to the Copper Queen smelter at Douglas about 100 tons per day of high grade sulphide copper ore. Frank M. Murphy, president of the Santa Fe, Prescott and Phoenix railroad, E. B. Gage, president and general manager of the Tombstone Consolidated Mines company, D. M. Ferry and company, noted steel men, and Fairbanks and company of Chicago, are the controlling owners of the property. They also own the Polaris mines in Yavapai county, the Congress mine in Maricopa and all the mines of the Tombstone district. It is quite probable that they will treat the ores of all these great properties at the Imperial smelter as it is connected with all of them by railroad and with a water supply from each other. This new plant will also treat custom ores of which there is a large amount within convenient distance of it. The Casa Grande district lies about thirty miles west of it and it is only about thirty-five miles from Florence, across a level plain to it. A railroad could be graded from here to Red Rock for \$500 per mile and with a railroad road completed all the vast supply of smelting ores now in sight in the Superior, Mineral Hill, Florence, Ripley, Kelvin, Ray, Riverside, Troy, Dudleyville, Saddle Mountain, Mammoth and Winkelman districts could be shipped to the Imperial smelter at small cost of transportation, hence there is no reason why the Imperial should not be made one of the largest and most successful smelting plants in Arizona. If the owners should desire to take advantage of the opportunity the situation of their plant offers for building up a great reduction and refining business, a business that yields larger legitimate profits than any other branch of industrial enterprises.

Douglas Gets Nowers Stock.—The stock of Douglas, which was formerly owned by Mr. Nowers on lower G avenue was today purchased by P. S. Douglas. It was reported on Saturday that this stock of Douglas had been purchased by Brown and Whitehead, but this deal was not completed and this morning Mr. Hill, the representative of the Los Angeles house of trade, who had charge of the Nowers stock for the benefit of the creditors, sold the stock and fixtures to P. S. Douglas. Mr. Douglas stated today that he had secured the services of a first-class druggist and prescription man and that it was his intention to fit up a first class drug store and continue the business at the old stand. The business is to be continued under the name of the "Old" drug store and it is to be supplied with a complete stock in every department. The building occupied by Nowers is owned by Douglas and Sparks and they were creditors of the Nowers business. Mr. Douglas is one of the pioneers of the city and has many friends here who wish him all kinds of success in his new venture.—Douglas Dispatch.

## VICTORIOUS JUNIORS ENJOY BANQUET

Enthusiastic Gathering of Victorious Reds at Y. M. C. A. Increased Interest.

The younger members of the Y. M. C. A. had a great time at the banquet which was given them last night at the building by the management of the Association. At least those who were fortunate enough to be on the winning side in the recent contest which has been under way among the juniors for some time.

As in the more generally known contest among the older members—the Reds came off the field victorious. The contest among the juniors closed on the 11th of the present month, and was won by the narrow margin of four points. The banquet last night was in celebration of the victory, and a very lively affair from start to finish, in which cheering, hand clapping and college yells took a prominent part. Physical Director Huntington acted as toastmaster, and after the toast, Secretary Buchanan made a rousing address that called forth general applause.

While not on so large a scale as the contest among the older members, the junior contest excited keen interest among the younger members, and has been a great help to both them and the Association, and all interests are thoroughly satisfied with the result. About twenty-five attended the affair.

## NEGRO HANGED, BUT RESCUED IN TIME

Officers and Citizens Foil An Alabama Mob.

DOTHAN, Ala., Jan. 21.—The negro, Franklin, who last night was taken from Sheriff Butler and his deputies and hanged to a tree, is again in the hands of the law and stands a chance for recovery. The mob last night so closely followed by the officers and law-abiding citizens, determined, if possible, to avoid a lynching, that it did not have time to get the victim outside the corporate limits, and hurriedly strung him up to the first tree and thinking they had rid themselves of the trouble, fled. On the arrival of the officers the negro was still alive and was immediately cut down and placed in the county jail. It is said he will recover.

## LONG TIME PARTNERS ARE FOUND MURDERED

California Crime That Puzzles the Officers.

WEAVERVILLE, Calif., Jan. 21.—Joseph Bebeas and Fred Holmes were found murdered this morning in their ranch home on Salt Creek, three miles from Hayfork. One was shot in the head, the other in the breast. There is no clue to the murderer. Robbery was not the purpose, for nearly \$100 was left untouched on the table. It is believed the tragedy occurred Friday. Bebeas and Holmes lived together twenty-five years, Holmes working for Bebeas. Both were pioneers of Trinity county. Neither drank, and they were never known to have had a quarrel between themselves or anybody else.

## RUSSIAN MINISTRIES ARE HAVING CONFLICT

Disagree Over Naval Officer With Evans Fleet.

ST. PETERSBURG, Jan. 21.—The conflict which has arisen between the Russian ministry of foreign affairs and the admiralty, regarding the alleged efforts of Commander Datchkoff to noted sea man, and Fairbanks and company of Chicago, are the controlling owners of the property. They also own the Polaris mines in Yavapai county, the Congress mine in Maricopa and all the mines of the Tombstone district. It is quite probable that they will treat the ores of all these great properties at the Imperial smelter as it is connected with all of them by railroad and with a water supply from each other. This new plant will also treat custom ores of which there is a large amount within convenient distance of it. The Casa Grande district lies about thirty miles west of it and it is only about thirty-five miles from Florence, across a level plain to it. A railroad could be graded from here to Red Rock for \$500 per mile and with a railroad road completed all the vast supply of smelting ores now in sight in the Superior, Mineral Hill, Florence, Ripley, Kelvin, Ray, Riverside, Troy, Dudleyville, Saddle Mountain, Mammoth and Winkelman districts could be shipped to the Imperial smelter at small cost of transportation, hence there is no reason why the Imperial should not be made one of the largest and most successful smelting plants in Arizona. If the owners should desire to take advantage of the opportunity the situation of their plant offers for building up a great reduction and refining business, a business that yields larger legitimate profits than any other branch of industrial enterprises.

## CANADIANS TO BLAME FOR JAPANESE INFUX

Big Corporations Asked Tokio To Send Labor Along.

OTTAWA, Ont., Jan. 21.—The report of W. L. Mackenzie King, royal commissioner appointed to inquire into the influx of Oriental labor to Canada, presented to parliament this evening his report. He established that the Japanese government had been observing the agreement to restrict immigration, and that the departure of the Japanese foreign office in April from regulations hitherto in force was made only at the request of the Canadian Steamship Company, backed by the Canadian Pacific Railroad and other influential Canadian interests, which represented at Tokio that Japanese labor was needed and desired in this country.

If there was a change, says King, in the policy of Japan, it was not one that could adversely affect the interest of the country without Canadian citizens or Canadian corporations first placing upon it the seal of approval.

## STEAMER BRINGS SMALLPOX.

VICTORIA, Jan. 21.—The steamer Pollophos of the Blue Funnel line reached yesterday afternoon from Liverpool, via the Orient, with five cases of smallpox on board. The steamer has been quarantined. The victims are all white, members of the crew.

## FRISCO'S BOND ISSUE.

SAN FRANCISCO, Jan. 21.—The first step in the bond issue of \$35,000,000 for Southern public works was taken by the board of supervisors today, when it passed to the point of a declaratory ordinance.

## FIREMEN PLAN MUCH BETTER PROTECTION

New Wagon Will At Last Start For Bisbee—Road Up Chihuahua Hill Wanted—To Train Horses.

Besides the attempts they are making to improve the service of the fire department by building additional tanks with proceeds from balls and other entertainments, the firemen of the city are at the same time paying due attention to every other need of the department. At the meeting of Company No. 2, which was held Monday night, the question of opening a road through Chihuahua Hill was taken up and discussed from every standpoint. The co-operation of the city council will be asked, and the property owners will be consulted as to whether or not they are willing to donate a sufficient amount of property along the proposed route to enable the city to build this much needed highway. It is highly important, both for the protection of the property on the hill, and that of the business section of the city, that a means of ready access to all parts of the hill in case of fire be afforded.

In regard to the wagon, of which so much has been said and nothing seen, Chief Henkel is in receipt of a letter from the company which is constructing it, stating that the wagon has been built and that they are now only waiting for the paint and varnish to dry before they ship it. It is therefore expected that the wagon will be loaded for shipment by the latter part of the present week at the latest. By the time the wagon has arrived a man will be on the ground ready to at once put the horses in training for responding promptly and obediently to alarms. Arrangements have been made with a man who is to have charge of this class of work and the horses are expected to be as well trained as those in any of the larger cities.

At the meeting of the company above referred to, the coming parade was discussed and it was decided that the firemen were fully equipped and additional plans laid that will assist in making a success of the occasion. A joint meeting of the two companies of the city will be held on the evening of the last Thursday in the present month, at which time there are many important questions to come up for consideration.

## FOUR ARE INJURED IN AMMONIA EXPLOSION

Tank Blows Up and Causes Loss of \$30,000.

GREENSBURG, Pa., Jan. 21.—Four men were injured, two seriously, and damage amounting to \$30,000 was done when a large ammonia tank under the pavement of the Hotel Pape, exploded today. The pavement was wrecked for a distance of fifty feet. The front wall of the drug store adjoining the hotel was torn down and windows shattered by a shock. The loud report caused a panic among the guests of the hotel.

## HAYTIAN COUNTERFEITER TAKEN IN NEW YORK

May Explain Where Revolutionists Get Their Funds

NEW YORK, Jan. 21.—Inside light on the financing of the Haytian revolution, now in progress, is likely to be thrown by the arrest of Joseph Girolean, who was taken into custody today by secret service men and arraigned charged with counterfeiting the paper currency of the Haytian government. Girolean pleaded not guilty and is held in \$75,000 bond for examination.

## COURT MARTIAL HALTED.

DETROIT, Mich., Jan. 21.—A telegram from the war department at Washington brought to an abrupt halt the court martial at Fort Wayne, of Lieut. Russell F. Hazard, Seventh Infantry, charged with embezzlement and forgery. The telegram said the war department had received information that Hazard was mentally incompetent, and that more time would be allowed for the preparation of his defense.

## FIRE DEPARTMENT DANCE.

Members of the Douglas fire department will give a dance in the Orpheum theater Saturday evening. Rudolph's orchestra will furnish the music and every effort will be made by the boys to see that all visitors enjoy the evening. The committee on arrangements appointed at the last meeting of the boys, consists of Messrs. S. G. Dowell, John Igo, Harvey Johnson, George Hill and Omar Pheasant. The proceeds of the dance will go to the department treasury. Dancing will begin at 9 o'clock and a program of twenty numbers will be carried out.—Douglas Dispatch.

## RELIEVED OF ARSENAL.

(Yuma Sun) Bill Sparks, colored gentleman, whose residence is at Laguna Dam, was rounded up in Yuma yesterday afternoon by Ranger Wheeler and relieved of a rifle, an ample supply of ammunition, two business looking knives and \$42.25. The temporary appropriation of these articles, however, was merely incidental to the arrest of the negro, who was suspected of being on the warpath. Earlier in the day Sparks had told the Ranger that he brought the gun to town to have the sights fixed, but it was known that had blood existed between him and another negro, he was closely watched, and was not detected in the making of a move toward getting his sights fixed. So securing a "nigger in the godolite," the Ranger took time by the forelock.

## ARMY OF SHEEPMEN NEAR DEAD LINE

Trouble Expected When Flock of 20,000 Reaches "Hole in the Wall."

GRAND JUNCTION, Col., Jan. 21.—The army of Montrose sheepmen, with flocks numbering 20,000, broke camp at dawn yesterday morning and left for the Utah line, making two miles a day. They were in camp last night at Sylvania in hostile territory, but no trouble is feared on account of the 300 armed guards scattered for miles about the stock.

They erected a monument of building and dirt on the spot where Peter Swanson a sheep herder, was murdered a few months ago. On the shaft they posted a notice that the reward of \$2,000 was raised to \$10,000 for the capture of his slayer.

The sheep will be near Fort to day and tonight. They took five hours to pass a given point on leaving here.

Cattlemen west of the city are reeling to sell the sheepmen any horse.

A clash is feared in Utah, as the marchers must cross the dead-line of the notorious Hole-in-the-Wall gang of cattlemen who in the past have slain many sheepmen and slaughtered stock.

## WETMORE GETS PLUM.

PROVIDENCE, R. I., Jan. 21.—Former United States Senator George Peabody Wetmore was elected to the United States senate on the first ballot cast by both branches of the assembly here today.

## ARRESTED, TAKES MORPHINE.

CLEVELAND, Jan. 21.—John M. Barchert, president of the Reliance Oil & Grease Company, under arrest on the charge of selling morphine to a friend, swallowed morphine today and probably will die.

## OPEN LAMP CAUSED IT.

GREENSBURG, Pa., Jan. 21.—The verdict of the coroner's jury which investigated the Darr coal mine explosion was returned tonight, exonerating the Pittsburgh Coal Company and attributing the explosion to the use of an open lamp.

## EXPLOSION ON FRESH SHIP.

PARIS, Jan. 21.—A special from Toulon says that a fire that destroyed seven meters of powder exploded on board the French armored cruiser Victor Hugo during practice. Considerable damage was done, but no one was injured.

## DROPPED INTO LAW.

The Hotel Man Turned His Court Experience to Account. A Missouri judge, traveling on circuit, once had before him in a small country town a case in which a tavern keeper was held for the payment of a large amount of money which he had not agreed definitely to pay. The court declared that, although his agreement was not on record, it was involved by construction or implied in his participation in a business proceeding connected with it.

After judgment had been rendered the court adjourned for dinner, and the judge found that the only eating house in the place was the inn kept by the defendant in the case he had just decided. He also found that the defendant personally superintended the preparation of the meals and that the food was charged for on the European plan.

The judge called for two boiled eggs, which, with the other food he ordered, were brought to him done to a turn. He ate them, and at the end of the meal the bill was presented to him. He was astonished to read on it the following items: Two boiled eggs, 10 cents; two chickens at 75 cents, \$1.50. Calling the proprietor, he asked: "How's this? I've had no chickens. Why do you charge me for them?" "Those are constructive chickens, your honor," answered the innkeeper. "What?"

"Why, they are implied in the eggs you know," the man persisted. His honor began to understand and said no more.—New York Times.

## CUPID AT THE BAR.

Why the Loving Maiden Posed as a Grand Jury.

"If you were a jury, Clara," said the embarrassed young lawyer heartily, "I could plead my cause with more self-possession. But in Cupid's courts I don't think I can claim to be a first class advocate."

"Perhaps you have not had an extensive practice, William," suggested the maiden softly.

"That's it exactly, Clara," eagerly rejoined the young man, moving his chair a little nearer. "I'm a new hand at this business. But if I felt sure the jury—"

"Meaning me?"

"Yes—wasn't prejudiced against the counsel?"

"What kind of jury are you considering me, William?" she asked, with downcast eyes.

"A common jury, of course. You couldn't be a grand jury, you know."

"Why not?"

"Because I don't plead before grand juries."

"I think, William," said the blushing maiden, "I would rather, for this occasion, be considered a grand jury, if you don't mind."

"Why, dear?"

"Because—And she hid her face somewhere in the vicinity of his coat collar—"because I have found a true bill!"—London Answers.

High School Teacher—Sometimes you appear really manly and sometimes you are quite effeminate. How do you account for it? Student—If it's hereditary, I suppose. One half of my ancestors were males and the other half females.—School Board Journal.

## STAGE FRIGHT.

Actors Have Been Known to Die From the Malady.

Perhaps the most terrible malady which can attack the actor in the course of his performance in the peculiar disease known as stage fright. Through its evil effects strong men and women have been known to faint, break down and do many other queer things, and there are even on record several cases of people who have died through this horrible seizure.

Some years ago a young novice who was to appear for the first time arrived at the theater very white and shaky. Brandy being given him, he appeared slightly better, but no sooner had he set his foot on the stage than he clapped his hand to his heart, with a low cry, and fell down dead. The overwhelming sensation induced by stage fright had attacked his heart, and his theatrical career ended thus even at its beginning.

Quite as ghastly was the case of the young amateur actress who, strangely enough, had never experienced stage fright when playing with her fellow amateurs, but who was seized with the attack on making her first professional appearance. She went through the scene aided by the prompter, her eyes glazed, her hands rigid, and when the exit came it proved her exit from life's stage as well as the mimic boards, for she staggered to her dressing room and fell into a comatose state, from which she never recovered.

Perhaps, however, the most peculiar instance of all was that of the veteran performer who had gone through thirty years of stage work without experiencing this malady. One night, however, he confided to a fellow player that a quite unaccountable nervousness had suddenly taken hold of him and that he did not think he could ever act again.

His comrade laughed at the notion and urged him to go on, as usual, but his astonishment may well be conceived when the poor old player went on the stage and, after making several vain efforts to speak, fell back and expired. The doctor who made the post-mortem examination was in implicit belief that the cause of the death was due to failure of the heart's action, evidently induced by the presence of an attack of stage fright.—Pearson's Weekly.

## THE HABERDASHERY

MAIN STREET.

## DURING OUR

## January Clean Up Sale

Watch Our Space Closely for Real Bargains.

FOR MONDAY AND TUESDAY ONLY we offer ALL MUSLIN UNDERWEAR AT 1-3 OFF.
